

## RTITB Accredited Forklift Operator Training

Allied Training can deliver training at our custom built Forklift Training Centre or travel and provide counterbalance and reach forklift training at our customer's premises to reduce any inconvenience to trainees. There is a legal requirement for forklift operatives to be trained. During training there must be sufficient space available to carry out basic manoeuvring skills and to set up a test course.

### Course Aim:

The aim of this course is to provide Forklift drivers with the necessary knowledge and training necessary to obtain certification as a Forklift operator.

### Course Objectives:

- ✓ On completion of this course, participants will be able to:
- ✓ Operate the forklift using safe driving habits.
- ✓ Demonstrate safe loading and unloading and movement of loads.
- ✓ Operate a vehicle safely, reducing the risk of injury to themselves and others.
- ✓ Understand the legislation that pertained to the use of the forklift.
- ✓ Understand the potential consequences of their actions.
- ✓ Refuel / recharge forklift safely.

### Course Programme:

- ✓ Introduction to the course and safe driving
- ✓ Introduction to the vehicle and its controls
- ✓ Safe operating practices and safety video
- ✓ Operator safety and elementary driving
- ✓ Safe loading and unloading of the vehicle
- ✓ Explanation, demonstration and guided practice in the correct procedure to adopt when driving the vehicle
- ✓ Examination (written and practical)

### Who Should Attend?

Refresher forklift training is a 1-day course for renewal of existing operator tickets. For experienced operatives (Proof required) a 2-day course should suffice. For inexperienced/novice operatives a 4/5 day duration course can be run.

### Training Methods:

Classroom presentation on multimedia, supplemented by videos and discussions throughout the course. Practical demonstrations and applications using the forklift. Supported by course hand-outs, training records and evaluation forms.
